

# 6RY1703-0DA02/C98043-A7002-L4-12

## Siemens 6RA70 power board

|                    |                                                                                           |
|--------------------|-------------------------------------------------------------------------------------------|
| Model              | 6RY1703-0DA02                                                                             |
| Brand              | Siemen                                                                                    |
| Category           | <a href="#">Siemens PLC</a>                                                               |
| Parameter Category | Specification / Description                                                               |
| Product Type       | DC Speed Control Board                                                                    |
| Brand              | Siemens                                                                                   |
| Model              | 6RY1703-0DA02                                                                             |
| Application Area   | Environmental protection, building materials/furniture, electronics/batteries, electrical |
| Primary Function   | Maintains stable engine speed under varying load                                          |
| Key Purpose        | Prevents engine stalling and overspeed damage                                             |
| Supplier Type      | Sold through distributors (e.g., Fujian Shiyi Technology Co., Ltd.)                       |
| Product Category   | Accessory or component for control systems                                                |
| Technology         | Electronic control board                                                                  |

Note:

Invshop recommends that you inquire with the original factory or its agents about the latest production status and technical information about 6RY1703-0DA02. The product parameters displayed on Invshop are entered by Invshop engineers according to the specifications, and efforts have been made to minimize errors, but we cannot guarantee the complete correctness of the parameters. Please refer to the specification sheet!
