

# AINT-14C Main control board Used for ABB

Model	AINT-14C
Brand	ABB
Category	<a href="#">Control Panel</a>
Primary Function	Main Control (MC) Interface Board
Main Applications	Used in ABB drive systems
Key Features	Signal conversion, isolation, and providing I/O interfaces.
Communication Interface	Equipped with communication ports
I/O Types	Supports digital & analog input/output for sensors and actuators.
Compatibility	Designed for ABB systems; compatible with ACS800 drives
Reported Supply Voltage	220V AC/DC

## Note:

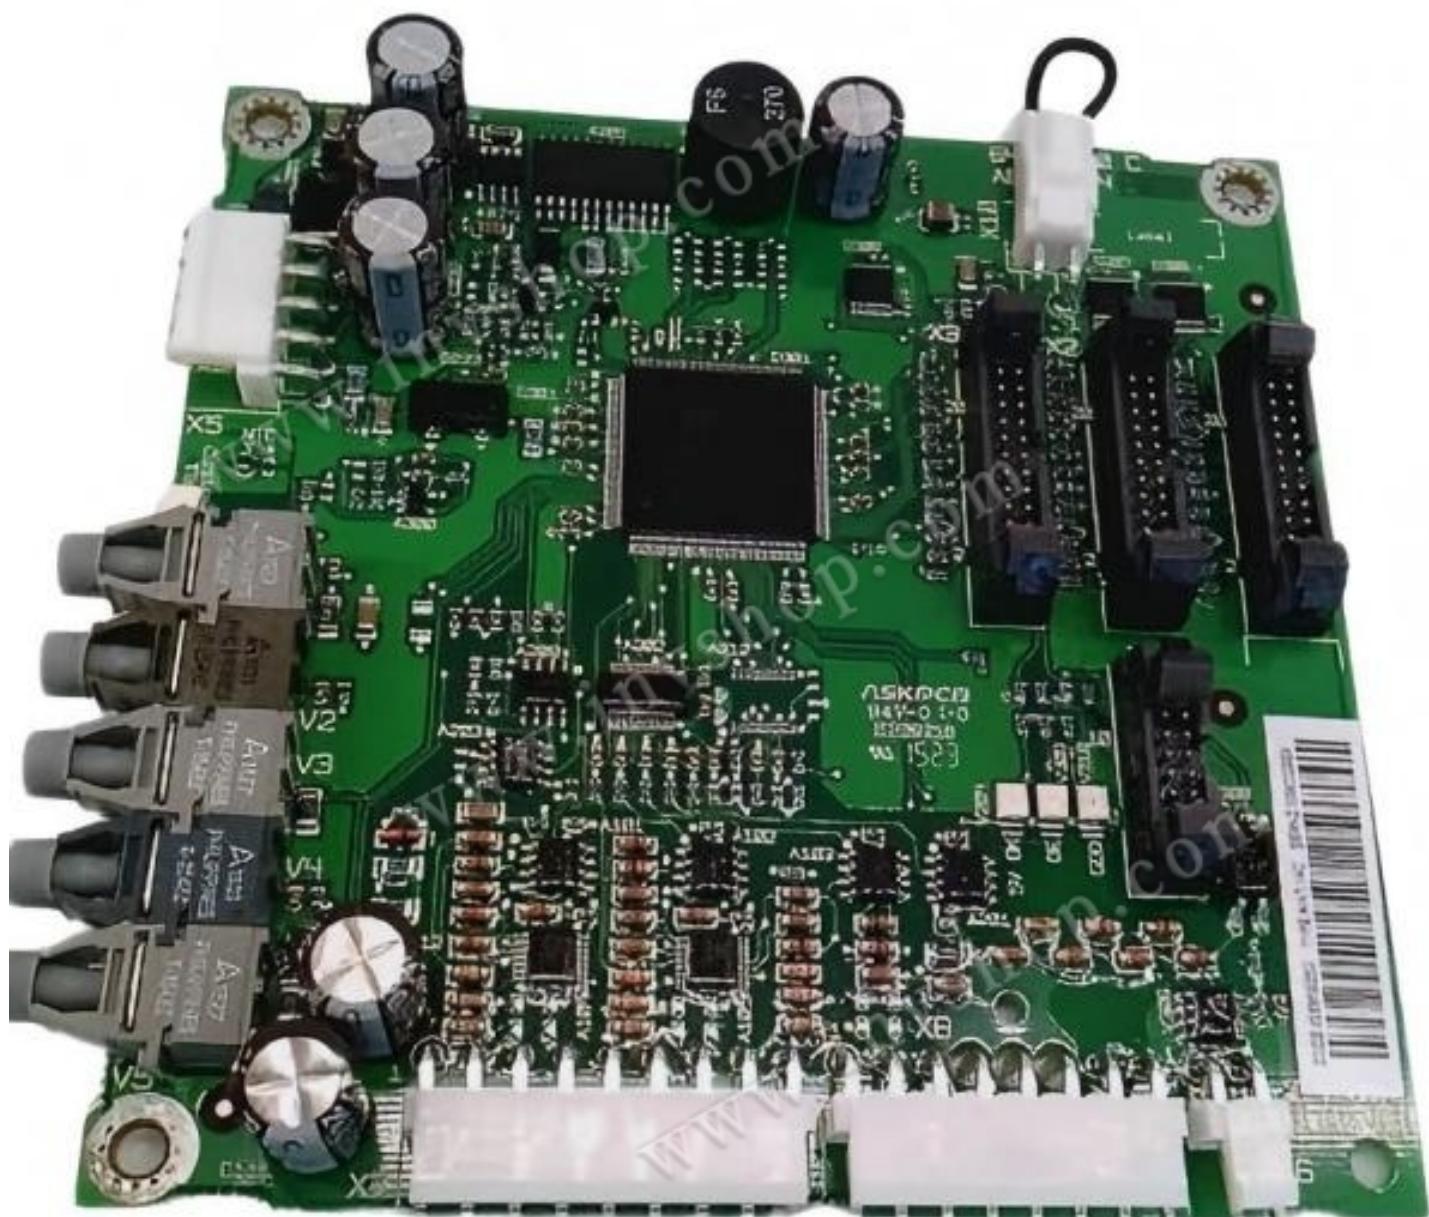

Invshop recommends that you inquire with the original factory or its agents about the latest production status and technical information about AINT-14C. The product parameters displayed on Invshop are entered by Invshop engineers according to the specifications, and efforts have been made to minimize errors, but we cannot guarantee the complete correctness of the parameters. Please refer to the specification sheet!
