

GE FANUC HE693THM884

Model	HE693THM884
Brand	FANUC
Category	FANUC
Model	HE693THM884
Product Type	Industrial Automation Component / CPU Contactor
Primary Function	Serves as a CPU contactor within a PLC system
Communication Interface	May be equipped with an RS232 serial interface
Key Feature	High safety performance
Application	Used in PLC-based automation control systems
System Integration	Aims to achieve centralized control and managemen
Signal Processing	Aids in the handling of switch signals
Reliability	Designed with a focus on high reliability and stable operation
Supplier	Xiameng Yingyi Automation Technology Co., Ltd.

Note:

Invshop recommends that you inquire with the original factory or its agents about the latest production status and technical information about HE693THM884. The product parameters displayed on Invshop are entered by Invshop engineers according to the specifications, and efforts have been made to minimize errors, but we cannot guarantee the complete correctness of the parameters. Please refer to the specification sheet!

The image shows a Schneider Automation TSX Quantum 140CPU4342A PLC unit in its original shipping box. The unit is silver and has a large 'A' warning symbol. It is secured with green foam packing peanuts. A large, stylized 'InvsShop' watermark is overlaid diagonally across the image.
